Neither Wheat Ner Corn Excite Much Features of the Trading and Cleates Enthusiasm.

LISTLESS, DRAGGING TRADE PREVAILS

Position Unchanged by Bulls, Who Console Themselves with Latest Russian Estimate-Interest in Corn is Centered in May.

OMAHA, September 15, 1905.

It was a listless wheat market. Trades were few and the range of prices was small. Armour's position is thought to be the only thing that holds wheat up. He bought little ioday. Northwest receipts were 1,211 cars. The position of the buils in wheat has not reen changed by the increase in the visible supply or by the larger receipts in the northwest. They look at the large reduction in Russian crop figures and receive consolation. The last estimate of the Russian crop is 472,800,000 bushels, as compared with 504,000 bushels jast year. Finni quotations were lower. September closed at 84%, December at 856,85% and May at 86%. Interest in corn was centered in May, though the trade was small. What buying there was in this month was done by Armour. His position on both wheat and corn is not clear to the general trade and the inclination is to be careful. At the same time is buying it is said he has brokers selling. September closed at \$2¢, old September at \$5%, December at 45% and May at \$9%, Old December at \$4% and May at \$9%, Old December at \$34% lower on corn. The weakness in wheat was attributed to the bearish French official estimate of the French wheat crop this year as 337,800,000 bushels, which is considerably above the average for five years and \$6,000,000 bushels above 1904. Roumania is said to have the best crop in five years. The semi-official estimate is 100,000,000 bushels, The yield in 1904 was \$2,000,000 bushels and shipments \$32,000,000 bushels.

Primary wheat receipts were 1,493,000 bushels and shipments 483,000 bushels, against receipts last year of 1,224,000 bushels, against receipts last year of 1,224,000 bushels and shipments of 599,000 bushels. Corn receipts were 590,000 bushels and shipments 714,000 bushels, against receipts last year of 24,000 bushels. Clearances were 7,000 bushels of corn and 3,000 barrels of flour. Bradstreet's total wheat increase is 4,955,000 bushels; total oats increase, 1,997,000 bushels. Advices from grain houses in various

oob bushels; total corn decrease. 162,000 bushels; total oats increases, 1,937,000 bushels.

Advices from grain houses in various parts of Nebraska and lows show that 30 per cent of the corn of these two states is out of the way of frost.

Valentine made a liberal distribution of brokerage orders on both sides of the market yesterday. He sold through half a dozen brokers early and at the same time seemed to have others buying.

Hedging and profit-taking were the features of the Minneapolis market. The cash demand there continues very good. Country elevators in the northwest are filling up with wheat, oats and barley. Some are airready full and cannot get cars to ship. Motive power also is scarce. Flour shipments at Minneapolis last week were 42,633 bbis., the largest since 1903.

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade. Prices on Board of Trade.

CHICAGO, Sept. 35.—Bright skies in the northwest had a bearish effect today on the wheat market here. Liberal primary receipts further weakened values. At the close wheat for December delivery was off the Corn is down to Oats show a loss of the Oats of the Corn is down to Oats of the Oats of th

close wheat for December delivery was off 16c. Corn is down 16c. Oats show a loss of 1821c. Provisions are practically unchanged.

Sentiment in the wheat pit was bearish the greater part of the day. At the start December was 16c lower to 16c higher at 8516286. Shortly after the opening a sale for December delivery was made at 86168 8516c. The market then reacted and before the end of the first hour December had sold off to 842,8816c. The weather in the northwest continued extremely favorable for harvest operations and for the movement of the crop. Receipts at Minneapolis and Duluth were again heavy, arrivals today at the two points aggregating 1.511 cars, against 94s cars the corresponding day a year ago. Pit traders and commission houses were the chief sellers. Apparent absence of any definite demand from the leading buil, who has been recently such an active buyer, tended to augment bearish sentiment. An increase of 5,000,000 bu, in the world's visible supply was an additional aid to the bears. Primary receipts showed a considerable increase in total arrivals today at the principal grain centers of the United States, being 1,185,000 bu, compared with 1,254,000 bu, a year ago. About the only buillish factor was a report made by the weather bureau at Washington. According to this report, the yields of wheat in North Dakota were proving considerably smaller than generally expected. During the last part of the session the market held comparatively steady. The close was somewhat easy, with December at 85,000 km, against 1,143 cars last week and 1,092 cars a year ago.

Perfect weather for the maturing of the corn crop caused an easy tone in the corn market. The weather bureau weekly report claimed that 75 to 90 per cent of the entire corn crop of the United States is now safe from injury by frost. Absence of export demand tended to weaken values. The market closed easy. December opened a shade lower at 4516c. Local receipts were 440 cars, with 292 cars of contract grade.

Heavy receipts and good weather caused gene

were 440 cars, with 202 cars of contract grade.

Heavy receipts and good weather caused general selling of oats, resulting in some weakness. Country acceptances were reported liberal. This induced additional selling. December opened unchanged to a shade lower at 25% to 25%-273%, cold off to 25%-273% cand closed at 25%. Local receipts were 382 cars.

A fair demand from shorts held the provisions market steady, notwithstanding a weak market for live hogs. A feature of the trading was liquidation on October products. At the close January pork was up a shade at \$1.7%-26.80. Ribs unchanged at \$6.77%-26.80. Ribs unchanged at \$6.77% cars; corn, 247 cars; oats, 267 cars; hogs, 20,000 head.

HOGS.—There was another light run here today, about sixty loads being on sale. There was a weaker feeling to the trade, reports from other points tending to make buyers a little bearish. On the opening market sellers were able to dispose of their best light weights at just about steady prices, but buyers only took a few at the price and asked concessions on the

bulk of the offerings. The trade all bulk of the offerings, the trade a through was slow and the market dragge considerably. Some of the good light hos wold at \$6.274,65.274, but the general ru of hogs sold at \$6.1365.25, as against bulk of \$5.2065.20 yesterday. Tops showe no change and were the same today as yesterday. 55%. The general market could best be quoted as being weak to be lower. Some buyers were late starting out and seemed indifferent about taking on supplies. Representative sales:

ing before any of the sheep came in and as a result the market was very slow in opening. It was not due to any weakness of the trade, however, that buyers and sellers did not get together until well along toward midday; it was simply the fault of the railroads. The market at this point is in very satisfactory condition and there is a good strong demand for all grades of sheep, especially for feeders. Receipts on the opening day of the week were liberal and the trade was strong and about the same conditions prevailed today. As soon and the trade was strong and about the same conditions prevailed today. As soon as the sheep arrived and were shaped up buyers and sellers got together and there was considerable activity to the trade, with prices steady to strong.

There was a good feeder supply here and a good strong demand, with plenty of orders to be filled. Some of the good feeders sold a little stronger than yesterday's prices, while the general market was fully steady.

Quotations on fat sheep and lambs: Good to choice lambs, \$6.5095.55; good to choice yearling wethers, \$4.5565.60; good to choice ewes, \$4.1554.40.

White, 274c. WHISKY-11.80, basis for finished goods. Londed Schooner Ashore. CHAMTHAM, Mass. Sept. 25.—A three-masted schooner, loaded, is ashere on Polelock Rip and is in danger of being broken to pieces. The crew of the Monomoy life-saving station discovered the position of the vessel at davlight. The liferavers succeeded in boarding the schooner after a hard puli through a choppy sea. A strong north wind is blowing and the crew of the schooner and the lifesavers will have a difficult task in returning to shore.
